

# What have you spotted?

spring

## frogspawn

look in lakes and streams for frogspawn or tadpoles

## butterflies

peacock butterflies with deep red wings and 'peacock eyes'

## pine cones

see how many different types of pine cones you can find

## bluebells

bell-shaped flowers which can be found on the woodland floor

## caterpillars

big ones, fat ones, small ones and hairy ones!

## catkins

can you find any new catkins opening for spring?

## flowers

look for flowers high up in horse chestnut trees

## blossom

can you see the white blossom of hawthorn or blackthorn?

## birds

birds will be out looking for food, how many can you see?

## bats

listen out for bats at dusk, you might see them if you're lucky

## dragonflies

look for dragonflies hovering above rivers and lakes

## eggs

butterfly or moth eggs under leaves
