

# Fortune teller

Start your walk

When you come across a bird, flower, insect or tree, spell out the word while moving the fortune teller back and forth with your fingers e.g. b-i-r-d (move 4 times)

How many birds/flowers/insects/trees are there? Move the fortune teller that number of times e.g. 2 birds (move 2 times)

Then lift up the flap that matches the number you see, to find where to walk to next
