

Lucky leaves

autumn

Autumn brings winds, rain and the first cold frosts.

It also brings fantastic coloured leaves which fall from broadleaved trees as they prepare for winter. Your challenge is to catch and collect as many leaves as you can catch before they touch the ground. Sounds simple doesn't it?

Can you catch 10 leaves?

Standing under different trees, how many different shaped leaves can you collect?

Who can find the deepest red, the brightest orange and can anyone find a purple?

Make a secret wish when you catch the first leaf

Who can catch the most leaves in 5 minutes?

Can you name the trees your leaves came from?

How many different colours are in your leaves?

Create a picture in which your leaves are now the trees

seal leaves between plastic sheets, cut them out and make into mobiles

press the leaves in a book and write down which type of tree they came from

sycamore
