

leaf creations

autumn

What could you create for a woodland animal using just fallen leaves and twigs?

A sleeping bag for a millipede?

A boat for a wood mouse?

An umbrella for an owl?

You can create many things by stitching the leaves together. Here's how to do it...

Find yourself some fallen leaves and thin but strong fallen twigs.

Overlap the leaves and use your thumbnails to carefully make a hole through both layers. Now make a second hole near the first.

Push your thin twig down through the first hole and up through the second.

Your leaves are now stitched together!

Now you've practiced leaf stitching you can start creating...

learning through the seasons
