

A new world

spring

Spring is the time for many *baby* animals to be born, exploring the world for the first time.

Imagine you are a *baby* squirrel, vole, robin or another woodland animal. Find a place where you might have *been* born. From this place look around you – what do you see, hear, smell, or feel?

Remember what size your animal is, where they go and what they like to do when you explore.

First steps of a caterpillar

What a delicious smell...
Good enough to eat...
This leaf so soft under
my feet,
It smells delightful!

Leaf hairs tickling my
tummy...
What a sweet aroma!
Crawling over bumpy
veins to the edge,
Wow – I'm a long
way up!
It's a long way down!

I can't resist this leaf...
...Chomp
